 L. V. Walker, M.A. (Cantab.)  
 W. McGregor, B.Sc. (Dunelm)  
 Mrs. B. N. Pilbeam, B.Sc. (London)  
 Mrs. D. M. Cooke  
 Mrs. D. M. Walmsley, B.A. (Liverpool)

Permanent Staff Instructor: J. R. Hopkin

Bursar: Vacant Acting Bursar: G. R. Almeida

Matrons: Mrs. Aberdien, Mrs. Burton, Mrs. Crease, Mrs. Dalwood, S.R.N.  
 Miss Fawkes, Mrs. Jessop, Mrs. Malcolm-Smith, Mrs. Megson,  
 Mrs. Poppleton, Miss Wilson, S.R.N.

Headmaster's Office: Mrs. Lamont, Mrs. Luger.

Bursar's Office: Mrs. Boase, J. De Souza.

† On leave

## Editorial

This term has been a memorable one for several things, apart from its length.

The Coronation of our gracious Queen Elizabeth was made more real to us here both by the remarkable Coronation film, and by the fact that we were privileged to see her in Kenya only little more than a year ago.

This term the school has been under the firm but kindly guidance of Lt. Col. Forrest, in the absence of our Headmaster who is on a well-earned Home leave.

The restrictions that have been placed on the liberty we used to enjoy have been willingly accepted by us all, knowing that they are as distasteful to authority as they are to us, and have been imposed solely for our safety during the present unsettled state of the country.

It is a matter for regret that in this number we offer no original contributions. We hope that during the coming holidays some, at least, will find time to meditate and compose. May we remind our readers that East Africa is very rich in suitable material for literary essays.

Once again we are extremely grateful to Mrs. Liversidge for her invaluable help in typing the manuscripts.

## Staff Notes

No one who knows Mr. Fletcher will believe that he is doing nothing, even although he is on home leave, and we have no doubt that he is seeing as many old boys as possible, and generally looking after the interests of the School with various authorities. When this magazine is issued, it will almost be time for his return, so that we can only express the very sincere wish that he has had a healthful and refreshing three months at home.

We offer our congratulations to Mr. J. H. Stewart on his appointment as Headmaster of the Technical High School, where we hope he will enjoy many successful years.

Already Mr. Fyfe has had to return from leave two months ahead of his time, and other masters on leave will be similarly affected by the recent Emergency restriction. Mr. Riddell has been called-up for full time duties with the K.P.R., leaving a blank in the P. T. Department. At present he is serving with Traffic Control in Nairobi. We wish him well and hope for a speedy return to his normal work.

We are shortly to lose Mr. Taylor to the E.A. Meteorological Department. Mr. Taylor has been Housemaster of Rhodes since 1950, and he and Mrs. Taylor and their charming family will be a loss not only to Rhodes, but also to the wider life of the school. We hope that he will find pleasure and success in his new work.

Mr. R. M. Sim's eight murals of East African industries will be on show at the Bulawayo Exhibition, where, together with his beautifully executed map of Kenya, they will be part of the Kenya exhibit.

We have the pleasure of welcoming three ladies to our staff: Mrs. Cooke (who has been here before), Mrs. Pilbeam and Mrs. Walmsley, and Miss Fawkes, the Catering Matron in Main Dining Hall.

We offer congratulations to Mr. and Mrs. Walmsley on their marriage, and to Mr. and Mrs. Lockhart on the birth of a daughter.

Mr. Wardrop, who has been Bursar since 1948 has taken up an appointment in the Treasury. Since the Bursar's job seems to entail being all things to all men—a thankless business—we take this opportunity of thanking him for dealing so tactfully with our complaints and grumbles. So far, no successor has arrived, but Mr. Almeida has earned our gratitude for the very helpful and efficient manner in which he has held the post this term.

## Office Bearers

### Head of School

J. W. WINTER

### School Prefects:

H. E. W. Berridge (S), H. R. M. Cowie (C), D. K. Lewis (N), R. A. B. Burn (C/Inter.), P. L. Lloyd-Parker (G), D. T. Peal (G/Jun.), F. J. Peal (H), T. C. K. Brown (G), P. B. Powles (S), P. J. R. Saunders (G).

### Hockey

*Captain*—A. B. Figenschou (left) T. C. K. Brown

## Coronation Celebrations

### *Coronation Service and Leave*

Coronation weekend was marked by leave from Saturday noon till Tuesday evening. Prior to the beginning of the leave, however, a service, according to the form advised by the Archbishop of Canterbury, was conducted by the school Chaplain, Canon Capon. Most boys were able to get home for the holiday, and many of those whose homes were too far distant to allow a visit were hospitably entertained by friends whose homes were conveniently nearer.

### *Visit of Lady Mary Baring*

On Thursday of Coronation Week a delightful ceremony was held in the School Hall when Lady Mary Baring visited the school to present Coronation medals and mugs. She was accompanied by the Acting Director of Education, Mr. B. A. Astley, and, after inspecting a Guard of Honour of the C.C.F. under Major W. J. H. Liversidge, was introduced to the School by the Acting Headmaster, Lt. Col. J. R. Forrest. Lady Mary spoke to us and gave us a Coronation message from His Excellency the Governor before presenting the mementoes of the occasion. After the ceremony, Mr. Chadwick and Major Liversidge conducted Lady Baring round the exhibition of books and coins on show in the Library.

### *Coronation Film*

Work was again very pleasantly interrupted on the morning of 17th June when arrangements were made for the school to visit the Capitol Theatre to see the very impressive Coronation Film, "A Queen is Crowned." The African Staff of the school had an opportunity later of seeing this film, and the Compound has since been full of excitement and "*mzuri sana*."

### *Coronation Exhibition*

On the two days immediately after the Coronation holiday, the School had the opportunity of seeing a small exhibition relevant to the occasion. Mr. Chadwick and Mr. Liversidge had organised this in the Library.

Books and coins were on view and these placed particular emphasis on the first Elizabethan age. In addition, there were original Tudor documents and medals struck to commemorate the defeat of the Armada. There were books printed during the reign of Elizabeth I, 17th century publications of memoirs of her reign and a number of modern books dealing with the period. The coins were representative of almost every sovereign from 1558 to 1953, and there was a complete set of the new coinage and a Coronation crown piece.

We offer congratulations to the three members of the staff whom Her Majesty has honoured by the award of the Coronation Medal.

Mr. P. Fletcher, Lt. Col. J. R. Forrest, Mr. R. M. Sim.

## School Notes

At the beginning of this term there were 571 boys on the roll, of whom 469 were boarders and 102 day boys.

Next term starts on Friday 11th September and closes on Monday 14th December.

Good progress is being made with the construction of the Swimming Bath. It is now at the stage where the walls are up to ground level and the cement bottom is laid. At the same time, the building of changing and shower rooms on the west side of the bath is also getting along nicely. It need hardly be said that progress is being watched by the school with lively interest although at the discreet distance laid down by authority. Additional subscriptions to this fund which have been received during the past few months are gratefully acknowledged.

Barbed wire fences have been erected as a security precaution round our two "temporary" wooden dormitories at Junior and Intermediate Houses, and formidable barricades close Entrances B and C after sun-down. In addition to the usual night watchmen, a fully armed askari force patrols the Compound day and night, with further help from Staff patrols during the hours of darkness.

We congratulate J. D. M. Silvester who has enhanced his distinguished school career by being awarded a Rhodes Scholarship. Our best wishes go with him when he enters Jesus College, Oxford, next term.

-----------------	-------------	---------------------------

To the parents and relatives of these old boys of this School, we would offer our sincere sympathy in the grievous loss they have sustained.

These young men are the first from this School to have given their lives in the present time of trouble and disorder. Their tragic deaths in early manhood are deeply regretted by those who were their friends and companions here.

**Mr. David Anderson**

At the end of term Staff Meeting in April, the Headmaster handed over the gift of a gentleman's dressing case with the best wishes of the staff to Mr. David Anderson, on the occasion of his retirement from teaching.

Mr. Anderson joined the Colonial Service in 1928, and on first appointment went to what was then known as N.I.T.D., Kabete, a vocational training school for Africans. From there he went to Kakamega and then, in turn, Loitokitok, Machakos and Njoro, before finally joining the staff of the Prince of Wales School in 1942.

For more than ten years Mr. Anderson has been Senior Instructor in Manual Work, and the many boys who have passed through his classes readily acknowledge his high standard of craftsmanship and his intolerance of shoddy and insincere work. There are various memorials to Mr. Anderson's stay at this school, but perhaps his best known is the design of the memorial lecterns in Chapel.

We wish David Anderson a long and happy retirement, with his car and his golf clubs in his native Scotland—although in his canny way he has been heard to admit that he "might come back to Kenya." If he does, he has many friends throughout the Colony to welcome him.

## Clive House

*Housemaster:* CANON M. G. CAPON *Assistant Housemasters:* Mr. D. S. GAMMIE, Mr. C. E. WESTWELL *Head of House:* H. R. M. COWIE *Prefects:* I. B. M. KENT, R. P. POWLES, A. K. B. SHERIDAN, M. L. SOMEN, A. W. STEWART.

Clive started the year as hopeful as ever, but last year's large exodus of strong members soon made itself felt, both in the Hockey and in the Rugger. The Senior House results were poor and this was aggravated by the large number of injuries this term, but the praiseworthy successes of our Juniors would indicate better times ahead.

We very much regretted the departure on leave of Mr. A. K. Fyfe in January, but his place was very adequately filled by Canon M. G. Capon. Owing to curtailment of his leave, however, Mr. Fyfe is now with us again, and we look forward to more of his leadership which brought us such victories on the sports side this time last year.

Though House successes were few, we were by no means unrepresented in the School teams, and our congratulations go to B. U. Kaufmann who won his School Hockey Colours, to A. W. Stewart and P. Wurzel who played in the School Hockey XXII; also to R. Buckle, G. B. Brooks, B. U. Kaufmann, I. B. M. Kent and B. R. Wilkinson who played in the School Rugger XXX.

We were sorry to lose R. A. B. Burn at the end of last term, but at the same time send him our best wishes for success in his new post as Head of Intermediate House.

We were very pleased by the success of the House Dance in March, especially as we were not able to hold a Dance last year. May we once again record our thanks to those parents and friends of members of the House who gave us such generous and substantial help and support.

The time has come for the House to cease to rest upon past laurels. The energy which is at present turned to occupations ranging from amateur hair-dressing to nocturnal sallies against the feline songsters of the Main Block needs also to be turned with renewed vigour on to the running track and into the classrooms.

## Grigg House

*Housemaster:* MR. W. J. H. LIVERSIDGE *Assistant Housemaster:* MR. P. G. NEL *Head of House:* P. J. R. SAUNDERS *Prefects:* T. C. K. BROWN, P. L. LLOYD-PARKER, I. C. MACFARLANE, G. T. MOWAT, R. C. W. ROBINSON, P. F. RUSHWORTH.

Grigg finished the third term of 1952 quite well, coming second in work for the Carthusian Shield. The Soccer Cup was only just lost after spending three years on the House shelf. P. F. Rushworth, D. N. Breed and N. C. Hyass gained School Colours for Cricket or Soccer. G. Kuchar won Lord Altrincham's Lion for the most consistent work done by any member of the House throughout the year.

In the first term of this year we started well in the Hockey Leagues, but the House Match results were disappointing and our final position was fourth. T. C. K. Brown was Captain of School Hockey. We were again second in work. We tied with Hawke for the Boxing Cup. This success was largely due to the coaching of Mr. Nel who gave much of his time to the members of the team and others. G. Kuchar won his weight for the third consecutive year and R. B. O'Meara also won his weight.

During the first half of the term we had a successful Rugger season and again owed much to the training and advice of Mr. Nel. We were undefeated in the competition for the Senior Cup and only three points separated us from the winners of the Cup for 2nd and 3rd XVs. Our juniors, however, were disappointing and failed to win a game. P. L. Lloyd-Parker captained the School XV for which six other members of the House played on various occasions.

House Colours have been won so far this year by P. J. R. Saunders, T. C. K. Brown, G. Kuchar and C. V. R. J. van Rensburg.

The senior School Prefect in the House, D. T. Peal, is Head of Junior House.

## Hawke House

*Housemaster:* MR. H. TABERNER *Assistant Housemaster:* MR. W. MCGREGOR *Head of House:* F. J. PEAL *Prefects:* R. S. BOND, J. J. BRADISH, J. V. CRAMPTON, K. A. ECKHART, K. G. HALL, M. A. K. WOODS.

As the majority of our stalwarts had left us, we began the year somewhat uncertain of the future, casting dubious glances upon our glorious array of cups. However, despondency was not to be ours.

Under the able leadership of M. A. K. Woods, our 1st Hockey XI managed to hold out against all its opponents, save Scott, but, in spite of their efforts, we ended the Hockey season by coming fourth. M. A. K. Woods, R. S. Bond, K. A. Eckhart, R. Mumford and M. Swan deserved their well-earned colours. Once again we proved ourselves to be prize-fighters by winning the Boxing Cup jointly with Grigg. Our congratulations go to A. L. C. Green and his team for their excellent effort.

Towards the end of the term our lagging spirits were greatly refreshed by a most enjoyable dance, which introduced new horizons to the more chivalrous of our members. As the first term closed, we bade a temporary farewell to Mr. and Mrs. Salmon who left us for a well-deserved holiday in their native Canada.

In the second term we welcomed Mr. Taberner as Acting Housemaster and Mr. McGregor, a newcomer to Hawke. In the first half of the term we finished last in the Rugger Competition, despite a keen struggle kept alive by R. S. Bond. We trust that we will have better luck in the Tug-of-War Cup, which we shall not easily relinquish, and in the more distant Sports Competition.

Meanwhile, the Einsteins and the dunces amongst us still plod on, with the hope that we shall gain a higher place in the intellectual fight for the Carthusian Shield.

## Nicholson House

*Housemaster:* MR. W. D. WRIGHT

*Assistant Housemaster:* MR. R. S. HARRIS

*Head of House:* D. K. LEWIS

*Prefects:* J. G. BELL, R. G. DAWSON

M. S. D. DAVIS, M. S. KEESE, D. H. SMITH, M. C. TILLEY.

In the first term of this year our performance in the House Hockey matches was good, and we were very unfortunate to miss the Cup. Our school work was not so good, but in the final order for Cock House points we found ourselves second. M. J. Leete, M. S. D. Davis, J. G. Bell, O. R. Anderson and B. Kalogeris played for the School First XXII. In the boxing we congratulate S. P. K. Wheeler, M. S. Keese and N. T. Millar for winning their fights. At the end of term we said good-bye to O. R. Anderson. To Mr. and Mrs. Goldsmith who went on leave to England, we sent our best wishes for their holiday.

For the second term, we welcomed Mr. Wright as our acting-Housemaster, and Mr. Earl as our assistant Housemaster. Fate did not look on us kindly this term, and after some well fought games we came out second in points.

J. G. Bell, M. S. D. Davis, M. S. Keese, S. P. K. Wheeler, R. G. Dawson and B. Kalogeris played in the school First XXX Rugger. We have great hopes for the Tug-of-War and Sports, and we are preparing to put up a good fight to regain the Sports Cup.

## Rhodes House

*Housemaster:* MR. C. M. TAYLOR *Assistant Housemaster:* MR. C. J. LOCKHART

*Head of House:* J. W. Winter

*Prefects:* R. D. W. BETTS, M. A. CROUCH, E. J. B. LINDELL, M. J. VAN DER WESTHUYSEN, M. C. TURNER.

We started the year with five new prefects, all of whom were very keen to make a success of the new term.

Our hockey teams did not excel themselves, but we had many hard fought and enjoyable games, and after a very hard season we managed to occupy third place. In the 1st XXII we were represented by N. J. Jones, M. J. van der Westhuyesen and J. W. Winter.

In the interhouse boxing competition we had many successes. Our team was very ably captained by R. D. W. Betts (also Captain of School Boxing), provided four finalists, and only narrowly lost the Cup to Hawke and Grigg.

We did very badly in work, occupying fourth place, which is the lowest position we have occupied for several years. We are determined to improve on this immediately.

At the beginning of the second term the House commenced Rugger training with great gusto and enjoyed an extremely good season. We provided eight players for the School 1st XXX, the 1st. XV proved to be more than a match for all other houses with the exception of Grigg who defeated us after a hard but equal game. Our second and third teams were not so fortunate, but our Juniors gave us every support by coming first equal. Although we were placed fourth

in final place, the houses in second and third place beat us only by a narrow margin, so on the whole we were satisfied with our effort.

The House was very dismayed to hear that Mr. and Mrs. Taylor will be leaving us at the end of this term, for they have been with us since 1946 and have done a tremendous amount for Rhodes. Mr. Taylor and his family leave us with our sincere good wishes for the future.

Now we are training hard for the 'Tug o' War and, eventually, the Sports in which we are determined to render a good account of ourselves.

## Scott House

*Housemaster:* MR. E. M. COBB      *Assistant Housemasters:* MR. G. C. KNIGHT AND MR. J. HEATHCOTE      *Head of House:* H. E. W. BERRIDGE  
*Prefects:* T. B. CLEGG, A. S. MAXWELL, J. NICHOLSON, P. B. POWLES, A. G. TSIPOURAS

Scott started the year well by making a clean sweep of the Cock Work Shield, and Hockey Cup. Our first Hockey eleven did not appear so good, but thanks to Mr. Knight, we were better on the field than on paper. This term the Second and Third fifteens managed to win the Hamilton Cup for the first time, although in previous years we have almost won it twice. Our first fifteen did as well as could be expected.

The House dance went off very well with the aid of the Heathcote family. A measure of the success was seen by the wistful and somewhat anxious expressions on the faces of many members of the House the next morning.

We are very sorry to lose Mr. Cobb and Mr. Knight at the end of this term. Good luck to them at their new jobs. Mr. Cobb will have been with us for five years when he leaves. He is the last original member to leave; the last boy being J. A. G. Brooks who left at the end of last year. Next term we welcome Mr. Chadwick as our new Housemaster and we are sure he will carry on Mr. Cobb's good work and make us keep the Carthusian Shield which we almost consider our own.

Meanwhile we will strive hard to better our former efforts on the Sports field as previously we have never really shone in this line.

## Intermediate House

*Housemaster:* MR. N. R. M. CHADWICK *Assistant Housemaster:* MR. C. HURST  
*Head of House:* R. A. B. BURN *Prefects:* R. A. BULLOCK, M. J. LEETE, J. R. STEVENS, G. M. VALPY, P. WURZEL.

Caged in as we are, by a ten-foot barbed-wire fence, we crave the indulgence of the Editor to allow our communications with the outside world to be a little longer than usual.

At the end of the first term we were unfortunate to lose Mrs. Minette, our House Matron, to whom we wish a good leave. We extend our appreciation to Mrs. Burton who has undertaken Mrs. Minette's work for this term.

Considering the high quality of our prefects, we can hardly expect Senior Houses to lend them to us for long. We bade farewell at the end of last term to J. C. Yolland, who as Head of House rendered us invaluable service, as did R. C. W. Robinson as a House Prefect. We welcome in their place R.A.B. Burn as Head of House and R. A. Bullock.

We offer our congratulations to F. S. Brazier, who has won minor scholarships for two English schools and also to G. Charles, G. M. Nightingale and a few others who appear to have worked harder than most so far this term.

M. J. Leete and P. Wurzel represented the School in the Hockey first and second elevens respectively, the former being awarded his colours. The House was also well represented in the Junior Colts. Rugger has been played with great enthusiasm by all, Clive, Rhodes and Nicholson tying for first place. This was due to the unbalancing effect of three large heavyweights—J. F. Crosskill of Clive, H. A. Levy of Rhodes and J. L. Potgeiter of Nicholson. F. A. Palin and N. H. G. Reed with others played for the Colts.

We hope that N. J. M. Brierley, G. M. Nightingale and N. H. G. Reed will contribute to the success of the School Play, as will R. A. B. Burn as stage-manager.

## Junior House

*Housemaster:* MR. C. R. BURTON *Assistant Housemaster:* MR. L. V. WALKER  
*Head of House:* D. T. PEAL *Prefects:* J. J. BRANSON, D. J. RIPLEY  
 W. R. MCA. SPENCE, R. E. TEMPLER, B. van OLDENBORGH.

The new members of the House soon settled down, the only trouble being the difficulty for the prefects to memorise the eighty-five-odd names.

It was not long before crystal sets appeared beside almost every bed, and the sky was obscured by a maze of aërials. The Badminton and Ping-Pong sets have also proved extremely popular. House hockey matches went ahead with keen competition, Nicholson taking the lead in both skill and brawn; in Rugby, however, Nicholson no longer found themselves supreme, for Rhodes and Clive proved their equals.

The House library is flourishing, and we sincerely thank those who have contributed books and magazines to it. School work has gone ahead with some vigour, a few boys being outstanding for their age, but we do not all profess to be paragons.

The second term saw our numbers considerably reduced, as well as the size of the boys in the house; this term's Juniors at least look like such, unlike some of the boys who have now left with their razors for senior houses.

Our latest House excitement, if it can be called such, was the watching of the P.W.D. *fundis* at work gradually encircling us with a ten foot barbed-wire fence, which has now been completed, giving "Junior" a fortified air.

At the end of last term the House bade "Bon voyage" to Mr. Minette, who departed from us for a well-earned leave, and we welcome Mr. Burton under whose guidance we have continued to flourish.

We hope that the Sports, and all else that lies ahead, will prove as enjoyable as our first two "peaceful" terms have done.

## Twelfth Night

"Twelfth Night" has been described as the pearl of English Romantic Comedy. It is certainly that. It is also a very happy play, and the Dramatic Society are to be congratulated on such a suitable choice for a happy Coronation Year, quite apart from the fact that we have not had the pleasure of seeing Shakespearian Comedy performed at the school before.

The permanent set, constructed and painted by R. McLellan Sim, a simple and dignified affair of steps and arches, was a very suitable background to the piece, and the Producer, Peter Cobb, made good use of it for effective groupings, entrances and exits. It also left the stage refreshingly clear, must have been a god-send to the Stage Manager, and did much to capture as near as possible a genuine Elizabethan flavour.

It is impossible, and indeed, unnecessary, to mention every member of the total cast of 27. Jesse Allen, as Malvolio, naturally stole the thunder. He put plenty of zest into his part, but he will soon learn not to spoil his performance by a tendency to over-act. Malvolio, besides being a "geck & gull," is also a very dependable steward. Does not Olivia remark that she would not have him miscarry for the half of her dowry? Michael Davis, as that jolly vulgarian, Sir Toby Belch, gave a robust performance, and when he had settled down, deservedly afforded the audience a great deal of amusement, while Michael Riegels portrayed the foolish Sir Andrew Aguecheek with a great deal of sympathetic understanding. A refreshingly lively and energetic performance was given by Neville Jones in the difficult role of Feste, the Clown. But we knew he could act before. One of the very best performances was that given by Nigel Brown, whose Maria was excellently done, if only for good facial expression, no unnecessary waving of arms and a very pleasing speaking voice. He might have brought out more forcibly the essential roguery and high spirits in her character, for she has an exquisite sense of humour, otherwise she could never have married Sir Toby. Viola spoke well, but must learn to act, and Olivia was so long unfreezing, if indeed she ever did completely thaw, that I thought she had joined Patience on her Monument and was never coming down. David Shelton, as Fabian, had moments, and showed that there is distinct promise in him. Tom Peal, in the difficult part of the Renaissance lover, Orsino, acted with impressive sincerity, and spoke up well.

So many people's hard work had gone into this production that it is almost invidious to single out individuals, but Trudi Cobb and Molly Liversidge deserve much credit for the very remarkable costumes which, I understand, they contrived from almost nothing, while G. C. Knight proved himself to be a skilful make-up artist. And finally, to Peter Cobb, who spent so many patient hours training the actors, I would say, in the words of Sir Andrew, "Excellent good, i'faith." It was a jolly good first try, and I hope he will try again.

E.G.A.A.

## Arts Circle

Chairman: MR. J. A. SELDON

Secretary: D. T. PEAL

The Circle flourished last term. New members were forthcoming and scarcely a fortnight elapsed without a meeting.

On 16th February, a very interesting and informative afternoon was spent at the new Aga Khan School with the architect, Mr. Vamos. The building, then completely ready, except for a mural in the entrance hall and some minor lighting adjustments, was awaiting its official opening by His Excellency the Governor. Among the attractive characteristics of the building is the exterior horizontal and vertical brickwork, which adds greatly to the aesthetic value of the building, together with the picturesque murals, worked in plaster of Paris relief, that border the entrance hall.

The Circle derived much enjoyment from criticising the paintings of Mr. Vamos and Mesdames Burns, Braun and Hvass, at their exhibition held in the City Mansion. The exhibition, though small, was extremely attractive, ranging from the "Church" painted in the Victorian style by Mrs. Hvass, to the extreme in modern painting by Valentine Braun, which many of us found somewhat bewildering.

Perhaps the most enjoyable outing of the term was the visit to the newly constructed house of Mr. Karmali. The exterior of the house is well-planned, providing sweeping line and brickwork. The maroon-coloured front door contrasts tellingly with the brickwork; the wide verandah, with its modern concrete overhang, gives an impressive air. The interior of the house can well be described as ingenious, providing a concealed sliding table and hidden fireplace, together with brightly coloured modern furnishings, blending well with the walls quietly painted in pastel shades.

During our informal Sunday meetings, much interest has been derived from our English, French and Dutch collection of prints, which have now been finally sorted into their respective files, and attractively mounted on pastel coloured paper. For this latter work we are much indebted to Mr. and Mrs. Seldon.

D.T.P.

## The Play Reading Society

Chairman: MR. N. R. M. CHADWICK

Hon. Sec. J. P. ALLEN

The purpose of this Society, founded in the first term of this year, is to encourage promising actors for School Plays and perhaps to discover hidden talent: but no less to provide enjoyment for its members.

Membership is limited to about fifteen, with representatives ranging from Form VI to Form I, and it is intended to read one play each term.

Last term the Society held three meetings and thoroughly enjoyed R. C. Sherriff's "Badger's Green." This term we hope to read "Orders are Orders," by Ian Hay.

## Young Farmers' Club

*President:* MR. J. A. SELDON

*Chairman:* E. J. B. LINDSELL

*Secretary:* D. C. STANLEY

*Treasurer:* R. D. W. BETTS

At the beginning of last term D. C. Stanley became Secretary of the Club, owing to the fact that our former Secretary, A. Cartland, was not able to return to school. Through this, the Club has lost a very staunch supporter.

We had several talks last term, but were unable to go on any visits owing to the disturbed local situation.

Speakers in last term's programme were:

Dr. French: a talk on "Animal Feeding," with particular reference to horses and cattle.

Mr. Ward, of the K.N.F.U.: a talk on "Beef Cattle."

Mr. Earle: a talk on "Fruit in England."

We also saw three films, kindly lent to us by I.C.I.: "Hygiene on the Farm," "Land Drainage," and "Contagious Abortion."

So far this term we have had a full programme. First, Mr. Tompkin, from Desert Locust Survey, gave us a talk on "Desert Locust Control." Two of our members were invited to the Malting Barley Competition, and were informed of the requirements of malting barley, and were shown the different types. Mr. Jackson, of Molo, recently gave us a talk on "Fruit Growing in Kenya." Speaking mainly on temperate fruit, he also answered questions on tropical fruit. Lastly, Mr. Ward talked to us on the Troup Report.

We have paid a visit to "The Breeze" Fruit Farm and Cannery, belonging to Mr. R. Boyd. Two more visits are on the programme, one to Major Sprott's farm at Ngong, and the other to the meat-processing factory at Athi River. The Club also looks forward to the Stock-judging at the Royal Show next term.

## Debating Society

*Hon. President:* THE HEADMASTER

*President:* MR. H. P. LAMONT

*Secretary:* P. B. POWLES

Our record this year does not seem to indicate much activity, but there are extenuating circumstances.

Last term was short and, with various complications arising from the Emergency, we found it very difficult (indeed impossible) to arrange frequent debates with other schools. A circular letter has now been sent out, and we hope that this will in due course bear fruit.

Up to the present, we have held debates with the Alliance High School and the Girls' High School. We have tried hard to debate with various other schools, but so far they have not found it possible to meet us. We shall not give up trying, and are hopeful of a fixture with the Limuru Girls' School while they are quartered in Nairobi.

The first debate this year was with the Kenya High School. The motion before the House was: "One Crowded Hour of Glorious Life is worth an Age without a Name." Miss Vivienne Gill, seconded by Miss Hilary La Fontaine, proposed the motion, while Mr. Peal and Mr. Spence opposed. There was much eloquent pleading on both sides, (but always to the point), and Mr. Spence in particular delivered a cogent speech on the evils of frivolous lives. Various speakers interpreted the motion to suit their arguments. The motion was lost by 18 votes to 27.

The second debate proved interesting, animated, and enjoyable. The Alliance High School provided one proposer and one opposer, and we did likewise. Mr. Onyango and Mr. van Oldenborgh proposed that "War is Nature's way of settling disputes." Many speakers seemed to find difficulty in defining *War*, and it was interpreted loosely by several on both sides. As usual, some speeches were apposite, some amusing, and others unconvincingly tendentious. The motion was carried by 24 votes to 18.

A "hat" night was held on June 6th. This was not taken seriously, but we spent a very enjoyable evening and appreciated the sundry speakers; also the sardonic comments of Mr. Cowie.

Many of our best speakers are in the School Play. When this is over, we hope to put our house in order and show our vitality. A flourishing Debating Society should be an essential feature of every school worthy of the name. It fills an important need and must not be allowed to languish.

P.B.P.

## Discussion Circle

*Master in Charge:* MR. H. P. LAMONT    *Assistants:* C. J. BEECHER and G. ZAMBETAKIS

Owing to the Emergency, we have experienced increasing difficulty in obtaining speakers, but meetings have been well attended and we have listened to some very interesting talks. Question time always produces intelligent queries that prove a good deal of thought.

Major Shorthouse (R.A.M.C.) described the invention and use of many modern drugs.

Mr. Chadwick gave a graphic account of the Kapenguria Trial.

Mr. Quinian (an old friend) delighted us with an explanation of the development of motoring from the earliest days.

Colonel C. A. Browne (always ready to oblige) showed us a selection of his superb animal and bird films.

Flight Lieutenant Ashley initiated us into the mysteries of radio communications.

Wing Commander Thompson enthralled us by relating his experiences in the Battle of Britain.

Major Crean (R.A.M.C.) gave a most lucid description of the evolution of flight.

Mr. Quinian came again to captivate us with his narrative of motor racing, in which he has played a very prominent part.

Flight Lieutenant King (R.A.F.) explained in masterly fashion how aircraft are serviced.

Mr. W. J. A. Hubbard delighted a large audience with the achievements of the great giant of cricket—Dr. W. G. Grace.

Major W. L. Johnson (R.A.E.C.) fascinated us with an expert story of the Long Range Desert Group and Intelligence work with the Arabs.

Captain D. J. Curtis (A.P.T.C.) spoke eloquently about boxing and brought two skilful exponents of the noble art to illustrate the various leads and counters.

Our warmest thanks are due to all these speakers, who often put themselves to considerable inconvenience to keep their appointments. We much appreciate their public spirit.

## The Choir and Choral Society

The Choir has had quite a successful year so far, but we are very, very short of Altos and also need more Tenors and Basses. Last term we sang several anthems in Sunday Services and ended the term with a service of Easter Music. This year's Trebles have sung better than their predecessors of last year, and in the Easter Service they sang the anthem "Ex ore innocentium" well. Miss Cochrane, also, very kindly sang a solo at the same service: "I know that my Redeemer liveth," from Handel's "Messiah." J. M. Forrest excelled himself as our accompanist; he also plays the piano one day a week at assembly.

We are very much looking forward to singing in the Kenya Church Music Society's *Conversazione* at the beginning of July. We have not been able to continue our broadcasts in the Children's Services this year, owing to the fact that they now take place on Sunday mornings when we ourselves are in Chapel.

Encouraged by last year's successful performances of Haydn's "Creation", the Choral Society has decided to sing the "Messiah" by Handel, if possible at the end of November; the Kenya High School and the Duke of York School have consented to sing with us. Last term we practised hard at some of the choruses, including the famous "Hallelujah" chorus, "And the Glory of the Lord," and "Behold the Lamb of God." Mr. Lockhart also played to us several parts of the work, sung by a famous choir, on the gramophone, in the hope that we would "go and do likewise."

Owing to difficulties of various kinds, we were not able to continue practising during the first few weeks of this term, but in our first practice a week or so ago, there was no lack of enthusiasm and we hope to start rehearsing soon with the other schools. We still need more members, however, and will welcome any singer who wants to join us, on a Tuesday evening at a quarter to nine in Rhodes-Nicholson Dining Hall.

## Political and Historical Society

*Chairman:* MR. F. H. GOLDSMITH

*Secretary:* F. J. PEAL

Despite the departure of many old members at the end of last year, the Society's membership continues to be large: an encouraging sign of the political interest taken by the rising generation.

Although the first term was short, and time precious, the Society was able to listen to three most interesting talks. At the first meeting of the year, we were honoured by the presence of His Worship the Mayor of Nairobi, Dr. J. R. Gregory, who gave us a keen insight into the City Council's numerous and burdensome activities. In early March, Mr. R. J. Swynnerton of the Agricultural Department, gave us an enlightening talk on the topical Kikuyu land question. Mr. E. T. Jones, General Manager of Shell Company in East Africa, addressed the last meeting of the term. His talk, "Oil and the World Situation," was an admirable admixture of fact and personal experience, continually flavoured by a lively sense of humour. We tender our warmest appreciation to all three speakers.

Owing to the Chairman's absence on leave, no meeting has yet taken place in the second term. It is, however, earnestly hoped that a meeting will take place towards the end of the term, and that the Society will be able to enjoy its customary number of well-attended meetings after the Chairman's return.

F.J.P.

## Scientific Society

*President:* MR. P. FLETCHER

*Vice-President:* MR. H. E. WATSON

*Chairman:* MR. J. A. SELDON

*Secretary:* J. J. BRADISH

At the beginning of the year our Vice-President, Mr. J. H. Stewart, left the school, and Mr. Watson kindly agreed to accept the presidency. The Society, open to all members of Form IV and above, had thirty-five members last term; the number, however, has now decreased, since several members have left school.

A notable lecture was given by Mr. J. Pilbeam. This talk, "The Record of the Rocks," was illustrated by photographs and actual specimens of rocks and fossils. The Society next visited Elliot's Bakery, where we saw the complete process of bread-making, and also the machinery for the production of biscuits. We all enjoyed the samples given us! Earlier in the term, Mr. Walmsley kindly projected several films, generously supplied by the United States Information Service, I.C.I., and the British Council.

## Playing our part

Every Shell company contributes to the prosperity of the area in which it operates.

Labour is recruited and trained and local employees prepared for high executive positions; capital is invested in harbour installations, roads, railways, airfields and buildings; education is encouraged; the resources of the country are developed; commercial and industrial enterprise are supported by large purchases and contracts; and underdeveloped, isolated areas are brought into touch with the technical benefits of the modern age.

Throughout the Commonwealth and Empire, Shell play their part with products and scientific research in the struggle against crop diseases and insect pests, against ignorance and poverty; their great resources are constructively employed in the cause of world prosperity.

—invests in the future

## Bugle Band

The band this year is much smaller than usual, due to the lack of trained players, but we hope to build it up as the year progresses.

Our Drum Major, M. S. D. Davis, only joined us at the beginning of the year, but he soon showed his confidence in handling the mace by throwing it up and catching it on his first appearance.

Our marching is of a regrettably low standard, but we hope to improve it soon.

Mr. Hopkin has very kindly consented to teach the band some new tunes, so in the near future we hope to stagger the school by introducing something new to vary the monotony of the Saturday morning flag parade, for the band has been playing the same tunes for the past three or four years.

Mr. Lockhart has put a tremendous amount of work into his brass band, and the two bands now play on alternate Saturdays.

The members of the band are:

Drum Major:	M. S. D. Davis
Buglers:	C. B. Younghusband, D. C. Stanley, D. P. Tilley, B. Owen-Thomas, R. P. Udall
Side-drummers:	A. N. H. Blackie, D. W. Lewis, R. H. Rosenston, E. J. Thiel
Cymbals:	R. L. N. Bennett
Tenor drummer:	J. A. D. Verlaque
Bass drummer:	J. W. Winter

## Natural History Society

President: MR. C. M. TAYLOR

Vice-President: MR. J. A. SELDON

Secretary: R. A. B. BURN

It is interesting to note that the Society has become much more popular among the Senior boys, eight out of the twenty-three members being in the fifth or sixth forms.

The bird section still has the largest number of enthusiasts. We are honoured to have amongst us a Member of the British Ornithological Union, A. D. Forbes-Watson, although at the moment he is helping J. W. Winter to identify a large number of skulls.

We regret the loss of E. J. Lugard, who put a great deal of work into the Grass Section, the collection and identification of which is being continued by R. A. B. Burn.

R. W. Lane, having finished re-arranging the collection of butterflies, has now started to identify the collection of shells and corals.

F. J. Robson has charge of the mounting of various animal skeletons.

## Chapel Notes

Since the last Chapel Notes were written, a change has been made in the arrangement of the east end of the Hall. The erection of the War Memorial Tablets in the Apse—these have still to be dedicated—made it necessary to remove the lecterns. In their old position they would have made the Tablets invisible to most of the School. So two small platforms have been experimentally erected outside the Apse. This improves the acoustics, especially as the choir and piano are also now at the east end. We shall hope soon to overcome the slight snags that still remain in the way of neat finish for curtains, carpets and other details. The comfort of those attending Communion services has been greatly increased through the kindness of Mrs. Liversidge. During her recent visit here she herself made and presented to the School an ample number of hassocks. They have been much appreciated by all who have endured kneeling on the concrete floor.

Our thanks are due to a number of visiting preachers. It was a happy thing that the Rev. J. Gillett, the School's first Chaplain, was able to preach his "farewell" sermon to the School. For the time being, he has settled into parish work in England, but the Gilletts' friends anticipate that they will be back in Kenya before many years are past. The Moderator of the Church of Scotland in Kenya, the Rev. R. G. M. Calderwood, visited us for the first time, and we were glad also to welcome General Sir Arthur Smith. His soldierly sermon was strong in the tradition of Christian leadership in the British Army. The service of Easter carols made a fitting conclusion to the Lent term.

It had been arranged some months before that Bishop Beecher was to be our first visiting preacher in May. Not long before he came it had been announced that the Archbishop of Canterbury had appointed him as the new Bishop of Mombasa. So he was doubly welcome. Sir Charles Mortimer preached on Whit Sunday and Mr. Carey Francis, Headmaster of the Alliance High School, stirred us with an eloquent appeal for Christian understanding at this time in our relations with Africans.

The School was on holiday on the actual day of our Queen's Coronation and it was, therefore, arranged that the special service of prayer for Her Majesty should be held here on the previous Saturday. It was an impressive time, as we joined in using the same prayers that were being said for her all over the Empire, and it was a good preparation for the solemnity of the Coronation itself. Here in Kenya the State Service in the Cathedral was the central point of the celebrations and at this, too, the School was well represented.

## Hockey

A good deal of Hockey was compressed into a short term, and although the 1st XI standard was again not as high as we would have liked, most of our matches were thoroughly enjoyable. A feature of the season was the increased number of inter-school games. We were more successful in these fixtures, though we could draw only twice—with the Duke of York School. The 2nd XI and Senior Colts had better fortune. Both our leading XI's failed to get a win against an adult club. The 1st XI played weakly against Parklands in the Craig Cup, and were easily defeated. They lost the initiative at the start, stayed on their heels, and never looked like regaining it. The 2nd XI showed more spirit against Vagabonds, and, could they have taken their chances, might have won. Generally, our defensive and midfield play was sound, but in neither XI did we find a satisfactory forward line, despite various changes of players and positions. Of course, only two members of last year's XXII had returned, and new and inexperienced teams were formed. The unbeaten Senior Colts were captained by A. Swan, who played occasionally and well in the 1st XI. They played good hockey, and encouraged us to hope for a stronger XXII next year.

A. B. Figenschou was appointed Captain of Hockey, but resigned at mid-term due to ill-health. He was succeeded by T. C. K. Brown. T. B. Clegg in goal, played very well until March, when he began to make an increasing number of mistakes. The backs, B. U. Kaufmann (Colours 1953) and T. C. K. Brown (Colours 1953), combined steadily and defended consistently, giving opposing forwards few chances to shoot. Kaufmann's anticipation and tackling were good, and he broke up many dangerous attacks. The wing halves were A. S. Maxwell (Colours 1953) and N. J. Jones. Their marking was tight, and they backed up their forwards well. G. T. Mowat, formerly a left inner, moved to centre half, and was just getting used to his new position when he fell ill, and was off games for nearly half the season. He had a good eye, and was quick on his feet and determined. Unfortunately, his place was never satisfactorily filled, though M. J. van der Westhuyzen did his best in it. A. B. Figenschou (Colours 1953) was a fairly fast right wing, but rather lacked the knack of creating openings. M. J. Leete (Colours 1953) was the most consistent forward. He had good stickwork, passed the ball unselfishly, and was ready to go for the goal. J. G. Bell, although he played on the left wing for some time, proved the most successful of several players, including M. A. K. Woods, who played at centre forward. B. Kalogeris, left inner, scored several goals by following up, but played the ball rather at arm's length, and showed up better in House matches than in School games. P. B. Powles was a fast, though not very skilful left wing who always showed great determination and dash.

The 2nd XI, captained by J. W. Winter, had a fairly successful season. They also were stronger in the defence than in the forward line, although in one match they ran riot and took all their chances. M. S. Davis, right back, played with great enthusiasm, and, if he was occasionally impetuous, was a stout defender. Winter at centre half marked well, and played hard and

steadily throughout the season. J. Georgulas, who played several times for the 1st XI, showed good stickwork. A. W. Stewart also played in the 1st XI while Figenschou was sick.

Scott won the Inter-House competition. Their 1st XI played some delightfully open hockey in the House matches, and their other teams were consistently successful. Nicholson, whose Juniors were outstanding, scoring 114½ out of 130 points, were close runners-up. In November, S. Shalg, J. A. A. Kleynhans and G. B. Brooks played for the Combined Schools against the Tata Sports Club XI, and on February 26th Kaufmann and Clegg were in the Combined Schools XI against Pakistan Rovers. We are grateful to Mr. Knight for coaching the 1st XXII and Senior Colts and umpiring their matches, and to all the Staff who umpired House matches. We regret that the Staff were unable to play the Duke of York School Staff this year, as we had looked to them to repeat their success of 1952.

### RESULTS: FIRST ELEVEN

Civil Service	.	.	Away	Lost	0—2
Army "Z"	.	.	Home	Lost	0—3
Asian High School	.	.	Away	Lost	1—5

## Boxing—1953

Last year boxing was almost forgotten, mainly because we had no instructor and no Inter-House Competition. In January, however, Q.M.S.I. Spinner, A.P.T.C., resumed his position as instructor, and an Inter-House Competition was held in March.

Most houses managed to enter a competitor in each weight, and some very good bouts were seen; although skill was often lacking, plenty of action and pluck were displayed.

A notable point about the competition was the fact that 15 of the 31 quarter and semi-final bouts ended inside the distance, but every final went the full three rounds.

Two new A.B.A. rules were introduced, and we saw the referee officiating inside the ring and heard the audible count.

R. P. Metcalfe (Clive) won the Fenton Cup for the most effective style. M. A. K. Woods (Hawke) put up a very gallant display, showing plenty of aggression against a bigger, heavier, and stronger opponent, and won the Best Loser's medal.

Hawke and Grigg tied for first place with 28 points each, and jointly hold the Ruben Cup. Rhodes and Nicholson, the previous holders, were runners-up with 26 points each, followed by Clive with 23 and Scott with 21.

*The results of the finals were as follows:*

*Midgeweight:* R. P. Metcalfe (C) beat P. H. C. Moolman (R) on points.

Both boxers had a sound knowledge of the game and displayed some clever tactics. Metcalfe was the more aggressive of the pair and this probably enabled him to earn the decision, as the fight was very close and Moolman was countering very cleverly.

*Mosquitoweight:* R. B. O'Meara (G) beat L. A. Tessaro (C) on points.

The first round started with both boxers rushing each other and throwing punches from all angles, but doing little damage. In the second and third rounds, O'Meara was content to let Tessaro do the attacking, while he kept him out of range with his straight lefts and steadily piled up points. Tessaro worked hard and always fought back.

*Flyweight:* W. Wainey (S) won on a walk-over from R. E. Stewart-Wynne (H).

*Bantamweight:* G. Kuchar (G) beat A. Mongardi (R) on points.

This bout was rather disappointing, as Kuchar was obviously going for a knock-out and, rather than box, rushed wildly at Mongardi trying to hook furiously, but Mongardi blocked these punches quite effectively. Mongardi did well against a very much stronger opponent, and managed to keep going until the last bell, in spite of being floored 18 times.

*Featherweight:* N. T. Millar (N) beat P. S. L. Griffiths (R) on points.

Griffiths displayed a good defence against Millar's aggressive attack, but did very little attacking himself. Millar boxed well and picked his punches carefully against an opponent who was continuously on the defensive.

**Lightweight:** R. Buckle (C) beat B. P. Gemmel (S) on points.

Buckle attacked right from the opening bell, and set up a fair lead. Gemmel, however, was by no means outclassed and often met an attack from Buckle with a very effective left counter. In the second round Gemmel took a lot of punishment, and Buckle built up a good points lead.

**Welterweight:** A. L. C. Green (H) won on a walk-over from E. J. B. Lindsell (R)

Lindsell was forced to scratch owing to a fractured thumb sustained in the semi-finals.

**Middleweight:** M. S. Keese (N) beat M. A. K. Woods (H) on points.

Each boxer realised that he was facing an opponent with a heavy punch and started very cautiously, but they soon warmed up and scored with several hard blows. In the second round, Keese began to show more aggression and landed a very heavy right hook to the lower ribs, which shook Woods and might have ended the bout if he had followed up quickly. Both were very fit and maintained an attack throughout the last round.

**Catchweight:** S. P. K. Wheeler (N) beat P. L. Lloyd-Parker (G) on points.

Wheeler began cautiously against an opponent who had a considerable advantage in age, height and weight and carried a heavy punch in both fists. In the second round, however, Wheeler found that he was able to score freely and, with added confidence, began to build up a big points lead by landing heavy left hooks and straight rights. In the last round Lloyd-Parker slowed up after trying to land a knock-out blow, and Wheeler consolidated his lead.

**Atomicweight:** (Special contest: No points awarded.) Steele (G) beat Verlaque (H) on points. Enslin (C) beat van Rensburg (S) on points.

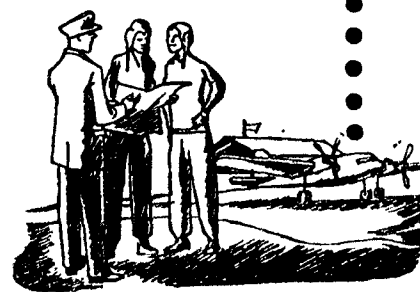

## Tennis

Since 1949 the School tennis team has played very few matches, and nearly went out of existence altogether. This term, however, interest in this activity has revived, and a full programme of matches has been arranged. The team has played a friendly match with the Kenya High School, and also a match against Civil Service "C" which we won by 10 sets to 8. We have got five more fixtures this term, and are hoping to arrange more next term. In July we will try to retain the Old Carthusian Inter-Schools Tennis Cup, which we won last year.

At present an Inter-House Tennis Competition is being considered, and it is hoped that it will be held next term.

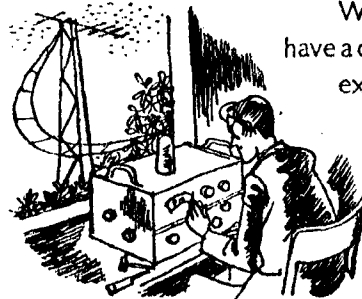

Although we lost many good players at the end of last year, we have some left. N. Jones won the Kenya Junior Singles title in March, and several others reached the finals and semi-finals in various events in the same tournament. At the beginning of the year T. C. K. Brown was elected Captain, in succession to F. R. Lipscomb.

Have you ever  
considered aviation  
as your career?  
There are good  
openings in the

aviation world for keen young men of the  
right type. How about learning to fly  
now? C.B.V. ex R.A.F. Flying School  
instructors will teach you—thoroughly  
and speedily to get your licence.

Radio "hams" will find much of interest  
to them in the C.B.V. Radio Workshops.

Why not call and  
have a chat with our  
expert mechanics.  
They're  
always busy—  
but you'll  
be welcome.

## Senior Colts Cricket

The Senior Colts did well, winning home and away matches against the Duke of York and St. Mary's Schools. They also won an under 15½ game, which ran into two innings each, against a Kongoni Colts XI drawn from other schools. None the less, the batting was not strong enough through the XI, and after M. C. Turner and R. J. Mills-Owens had gone up to the 1st XXII, too much depended on W. J. Hiles and R. L. N. Bennett. There was plenty of bowling, and R. S. Oulton (the Captain) and D. L. Dare were generally too good for opposing batsmen.

Played 5 Won 5

### RESULTS:

v. Duke of York School Colts	<i>Away</i>	won by 62 runs.
v. St. Mary's School Colts	<i>Home</i>	won by 74 runs.
v. Duke of York School Colts	<i>Home</i>	won by 39 runs.
v. St Mary's School Colts	<i>Away</i>	won by an innings and 20 runs.
v. Kongoni Colts XI	<i>Home</i>	won by ten wickets.

## Old Cambrian News

Michael Jolley has qualified as a Chartered Accountant.

Graham Purchase is now studying Science at the University of Witwatersrand, with the intention of going on to Pretoria University for the Veterinary Course.

P. S. Kidner writes from Australia to say that he would like to get in touch with his old friends (Donald Miller, Leicester Stockley, Glen Cottar, Robert Gray). On leaving school, he "pottered around and hitchhiked all over Eastern Australia," finally training as a teacher and is now an assistant master in the Central School, Tooleybuc, N.S.W. In Sydney he met John Wynn-Jones who is studying at Sydney University, and Ewan Macartney-Snape who was last heard of on a cattle station in Queensland.

Henry Davidson, as a B.O.A.C. Inspector, has been on duty in South America, but is now on a visit to Tokio in the course of his duties. His brother Geoffrey is with the Festival Ballet Company touring North America. Leo is flying with E. A. Airways, and R. A. has qualified as a doctor, having a hockey international cap to his credit as well.

M. S. Gordon and M. Fletcher have both been selected as District Officers in charge of Kikuyu Home Guard.

Francis Kelly is a business manager in Uganda and flies his own plane to get around around his district. Edward Kelly, having taken his degree in History at Oxford, is now running his own Prep. School in England.

Geoffrey Irvine graduated M.B., Ch.B. at Edinburgh University and is now practising in Chogoria.

Ewan McCrae obtained his B.Sc. (Agric.) at Glasgow and is at present managing a farm on the Kinangop.

R. Winter is serving with the Shell Co. and is stationed in Singapore where he finds the cost of living higher even than in Kenya.

Michael Prettyjohn, who has been taking a course in agriculture at Shuttleworth College, is planning to return by car with two companions by the overland route.

David Griffiths is attending a military course in Yorkshire prior to entering Sandhurst.

R. van Emmenis writes to say he is working very hard at Witwatersrand University, where T. E. Dimopoulos is now in his second year of medicine.

R. M. Hudson called at the School on his way to the U.K. where he is to study Electrical Engineering at Southampton University.

J. E. Moore has completed his first year at Bangor and has won the middle-weight championship of the University of Wales. He seems to have toured most of the British Isles by bicycle, and met J. A. Grigor in Edinburgh.

N. Ladenis is working, in London, for the General Certificate of Education and hopes, ultimately, to go to the London School of Economics. He writes that, on one of his visits to East Africa House, he almost thought he was back at the Prince of Wales, so many old boys were present.

P. C. D. Allen writes from Oriel College, Oxford that "being at Oxford makes up for all the disadvantages of the weather and of the menu." He is reading P.P.E., attends the Union debates and is playing hockey and water polo.

A large number of our old boys are at this time serving in one branch or another of the Colony's Security Forces. To all these the school sends good wishes in the unpleasant and exacting work they have been called on to undertake.

WE GRATEFULLY ACKNOWLEDGE RECEIPT OF THE FOLLOWING CONTEMPORARIES: The Allidina, The Bryanston Saga, The Cantuarian, The Cheltonian, The Cheynan, The Cholmelian, The College Times, The Corian, The Dauntseian, The Elizabethan, The Firefly, The Grovian, The Hiltonian, Hutchins School Magazine, The Hymerian, The Indusian, The Jeppe High School Magazine, The King Edward VII School Magazine, The Laxtonian, The Ousel, The Reptonian, The Rossallian, The Salopian, Schola Regia, The Triangle, The Trident, The Yorkist, The Watsonian, The Wheel.

"As You Like It"

*Shakespeare*

"All the world loves a lover," so they say. Shakespeare evidently did. But then lovers and their vicissitudes are part of the stock in trade of every poet and playwright. The stock in trade of G & R is much more prosaic, but at every age of man (except possibly the first!) G & R supply much to keep the home, business or farm ticking over nicely.
